

PPS – Special Packages.

PPS Cloud Transformation.

Optimize Your Software flexibility by moving your Solutions and Apps to your private Cloud installation.

Available for:

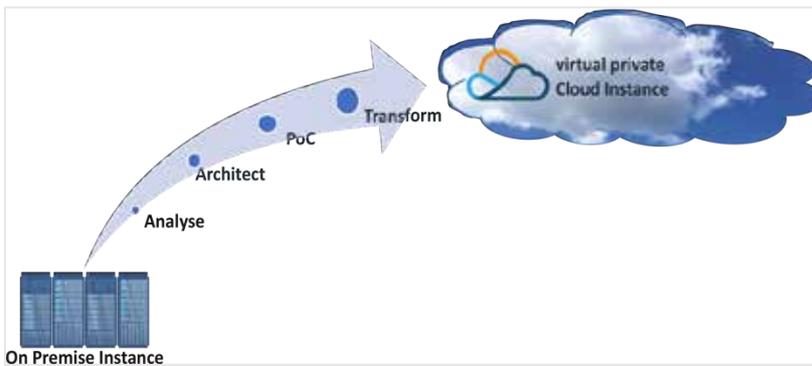

| | |
|--|-----------------------------------|
|  | AWS IoT |
|  | Elastic Search/Kibana (ELK Stack) |
|  | Hybris - SAP C4/Hana |
|  | Intershop Commerce Suite |
|  | Liferay DXP |
|  | Microsoft Azure IoT |
|  | Siemens Mindsphere |

Our Promise:

Maximize Flexibility for Your Platforms.

Using their Solutions and Applications GDPR-Save and as flexible and performant as possible within a modern State-Of-The-Art Software Infrastructure is something, more and Customers are asking us for. Beside using Standard Cloud Offerings based on Google, Amazon, Azure, and so on... Customers technically are also able to use their local on-premise Software Installations running on their own private Cloud Infrastructure. Hereby it does not matter if this is private Infrastructure based on common Cloud Software (e.g., KUBERNETES, Docker, Open Stack, OpenShift) or if you are using public Infrastructures such as AWS or Azure. Using proven techniques, and with the Experience of several Cloud Transformation Projects from legacy to modern

Architectures throughout Europe and Great Britain, PPS will help you transforming your existing or new Solutions and Applications into your favored Cloud Infrastructure.

The **PPS Cloud Transformation Package** gives you the help of our experts who have worked with multiple environments and know which techniques to implement in order to get your Platform up to speed on a modern foundation that allows for maximum flexibility by saving the maximum of TCO Costs for your existing or new Platform Project.

For additional details please contact our [Cloud Transformation Project Head](#).

What will you get?

- | | | |
|--|--|--|
| <ul style="list-style-type: none"> ▪ Maximum Flexibility ▪ Modern Architecture | <ul style="list-style-type: none"> ▪ Minimized TCO ▪ Increased Up time | <ul style="list-style-type: none"> ▪ Increased Stability ▪ Increased Performance |
|--|--|--|

Our Background:

PPS Performance Specialists have worked with companies throughout Europe and Great Britain across a variety of industries such as

- | | |
